The Nexis® Service
Comprehensive Content

- Access the broadest collection of relevant and credible news and business content including global news, company, people, industry, country, legal and regulatory information and public records.
- Search a purposely curated and strategically managed content collection, ensuring maximum value not just the largest volume.
- Investigate industries and companies with in-depth industry overviews, company profiles, financials and SWOT analysis reports. Over 1,100 industries and 200M+ companies available.
- Explore a growing collection of indexed web sources vetted by LexisNexis editors as authoritative and industry relevant.
- Get the full picture with web and licensed news sources evaluated and added every day; find full-text news articles and deep archives not available on the web.
- Identify relationships and find full person and company records in an unmatched public records collection with powerful search and linking technology.

Easy-to-use search forms allow you to quickly select the sources, index terms and other search options needed to find the most relevant research results.
